

Multi-currency accounts: Hold money in foreign currencies

Receive and manage payments from customers in any currency.

Manage multiple currencies from one online account without the hassle of opening multiple overseas bank accounts.

Multi-currency accounts allow you to avoid unnecessary currency conversion and hold foreign currency balances in over 25+ currencies.

Improve cash flow

Eliminate unnecessary foreign currency conversion and hold foreign currency balances for future international purchases.

Manage payment trends

Forecast projected cash flows in every available currency by managing payment and receivable patterns. Manage inflows, outflows and hedging in a single view and revolutionize your cash management processes.

Available online, 24/7

View balances in multiple currencies 24/7 from one simple and easy to use account. Our solution allows you to go mobile with access from your smart phone from anywhere in the world.

Receive competitive market rates

Set up Rate Alerts to target your ideal exchange rate while receiving competitive exchange rates for purchasing and selling foreign currency.

Expand your business by accepting payments from your customers in local currency while managing your payables and receivables from one online account without the hassle of opening overseas bank accounts.
