

# International payments

We've taken a new approach to international payments.

We keep it simple. We offer competitive exchange rates, NO transfer fees, and complete transparency on all your international transactions.

## Incoming Payments

Do you sell internationally? Our solutions let you receive and hold funds in multiple currencies.

Manage your foreign exchange costs, streamline reconciliation, and reduce the cost of collecting multiple currencies with your bank. Conveniently manage funds anytime from one simple online account.

## Outgoing Payments

Make international payments in over 120+ currencies and send money anywhere you do business.

## SINGLE PAYMENTS

Sending funds to suppliers and partners around the world through our global payment network is fast, reliable, and secure. Make payments anytime, to almost anywhere right from your laptop or mobile device. With access to real time SWIFT confirmations, we keep you in control and ensure that your funds arrive on time, every time.

## BATCH PAYMENTS

Does your business manage a large number of international payments to suppliers, partners, or employees overseas? Our batch payment processing system is simple, smart, and efficient. Simply upload files from your existing accounting system and we'll do the rest. With real time payment tracking and reporting, we keep you in control.

Find a payment solution that's right for your business by using our global payment network. Our payment solutions can save you a significant amount of time and money.
